WELCOME TO THE GREGG COUNTY 4-H PROGRAM!

We are glad that you have chosen to be part of the largest non-formal youth education organization in the United States! Over 5.6 million youth participate in 4-H each year to become self-motivated, productive and contributing citizens.

4-H is designed to be a family affair, so 4-H parents are encouraged to get involved in the 4-H experience. Ways that 4-H parents can contribute range from serving as a project leader to providing transportation to activities, or even supplying refreshments for meetings or special events. 4-H parents are also needed to supervise 4-H activities.

Gregg County has an outstanding group of dedicated adult volunteer leaders as well as a superb group of motivated 4-H members. We welcome your family into our Gregg County 4-H family!

Please read through your Gregg County 4-H Handbook to answer any questions you may have about the 4-H program. This handbook is designed as a reference tool for you throughout the 4-H year. Please refer to the 4-H Newsletter as you set your goals for participation in 4-H events and contests.

Best wishes for a fulfilling year in 4-H! We look forward to seeing you at events throughout the year.

Sincerely,

Arvitta Scott

FAMILY GUIDE

Creating a NEW Family Profile

Only families participating in Texas 4-H for the first time should create a NEW family profile. Once created, family profiles are permanent. If you already have a 4HOnline family profile, **do not create a new one**. Contact your local county Extension office for assistance if you are not sure whether you have a family profile, or if you need assistance accessing it. To create a **NEW** family profile in 4HOnline, follow these steps:

1. Go to <http://texas.4honline.com>
2. Click “**Don’t have an account?**” if you have **never** enrolled in 4-H before using 4HOnline.

Note: Your family profile must be associated with a valid email address. This will be your login and you will receive communications to this address. It will also be the email address where a password reset will be sent, if needed.

The email address you provide can only be associated with **one** family profile. If 4HOnline does not accept your email address, you may already have a 4HOnline family account. Contact your local Extension office for assistance.

3. Select “**Texas**” from the drop-down menu
4. Select “**Texas 4-H and Youth Development**” for the Institution

5. Select **your county** from the drop-down menu.

Note: When selecting your county, you are choosing the 4-H program in which your family will participate. Read the rules and guidelines for more information:
<https://texas4-h.tamu.edu/management/>.

Click **“Continue”**.

6. Complete your family's information. Required fields are marked in **red** and must be completed to move to the next screen. If you have mistakenly chosen the wrong county just hit the back button to adjust it before moving on to the next screen.

Remember: Your family information must be associated with a valid email address. This will be your login and you will receive 4-H communications at this address. It will also be the email where your password reset will be sent, if necessary.

Click the **“Create Account”** button

Note: An email account can only be associated with one family profile. If you enter an email address that is already associated with a 4HOnline profile, you will see an existing family profile message. Click the **“Confirm”** button and continue to log in to the existing account. See instructions for logging into an existing [family account](#).

7. Enter your family's address information and click **“Verify.”** The verification process may require you to select an appropriate USPS format. The local county Extension office may have authority to bypass this for rural areas.

If there is already another record in 4HOnline with a matching address, you may see this Duplicate Address screen:

Use the browser **“back”** button to return to the previous screen. Double-check the address you entered and try again. Be sure you have included the full USPS address and a unit/apartment number, if that is part of your address. If you receive the Duplicate Address message again, choose an account recovery method and contact your local county Extension office for assistance.

After the address is verified, your family profile has been created! You will receive an email confirming your family profile. The next screen will allow you to add the first member to your family.

Family Profile Management

Each time you log in to your family profile in 4HOnline, your Member List will open as the home page. The Member List displays all family members for whom a Member record has been created. In addition to the Member List, your family profile contains family details, events, and saved credit card information.

Member List

Your member list shows each member record that has been added to your family profile. You can see:

Step 4 - Start a Project

On the 4-H Connect Enrollment pages, 4-H members are asked to select projects of interest to them. When you start your 4-H experience, you may want to select one or two projects. The more years you are in 4-H, the more projects you can usually handle. 4-H projects can be conducted throughout the 4-H year (September 1-August 31). Certain projects have special activities or contests, so you need to begin some projects at specific times during the year. After you select your projects, contact your Club Manager or County Extension office if you have any questions. For Texas 4-H Project List information, go to https://texas4-h.tamu.edu/wp-content/uploads/Management_ProjectList_1819.pdf

Step 5 - Complete a Project

After you have selected your project you are ready to start gaining information and having fun learning about your project. In 4-H, you are asked to do a minimum of six learning experiences to complete a project. Learning experiences will vary from project to project, such as meetings with other 4-H'ers and Leaders, going on tours, attending workshops, reading publications or surfing the Internet. Many 4-H'ers work on the project with their parents, grandparents or other family members while other 4-H'ers work on projects with a group of friends. Working through a project from start to finish helps 4-H member gain skills in carrying out responsibilities, as well as setting and completing goals.

On the following pages, you will find a table that outlines some of the project areas in Gregg County 4-H. Use this information to look ahead for major deadlines and event timeframes. Then, refer to the 4-H Calendar found on the county website to find specific dates and project meetings.

4-H ROUNDUP (County, District, State)

The 4-H Roundup Contest provides 4-H members a chance to display their public speaking skills. 4-H members use the knowledge gained from 4-H projects and activities to prepare a presentation. Presentations are a very valuable educational tool in the 4-H program. Through presentations, 4-H'ers learn how to organize their thoughts and present their ideas. Below is a description of educational presentations.

Educational presentations are planned presentations by one to five 4-H members that teach information related to a project or activity. Simply, they are ways of “showing” and “telling” others how to make or do something and sharing useful information.

Through a method demonstration, you “show” others how to do something. You make something. There is a finished product. Through an illustrated talk, you talk about a particular subject; you are “telling” with the use of illustrations. Through the “speech” method you simply educate with words alone. Visual aids such as slides, posters, charts, pictures, etc. can be used in method demonstrations and illustrated talks. There is a 12-minute time limit for educational presentations.

4-H members may present method demonstrations and illustrated talks as an individual or as a team of up to five 4-H'ers.

Another 4-H Roundup category is **PUBLIC SPEAKING**. In the public speaking category, an individual 4-H member presents a 5 to 7-minute speech. Props and visual aids may not be used.

SHARE-THE-FUN allow 4-H members to demonstrate their acting and showmanship talents. There are several divisions of Share-the-Fun:

- “ Solo/Band - Group of 2 to 9 members
- “ Poetry/Prose- Individual or group. (Maximum group of nine).
- “ Vocal- Individual or group. (Maximum group of nine).
- “ Musical/Instrumental - Individual only
- “ Choreographed Routines- Individual or group. (Maximum group of nine).

Through this contest, 4-H'ers learn to practice wise consumer skills.

Record Book for recognition at the Annual 4-H Awards Banquet held in the fall and to be considered for 4-H awards.

4-H Record Books are a great way for 4-Hers to keep records of their progress on their project! In constructing a 4-H Record Book, members organize information about their participation and accomplishments in all 4-H projects and activities. Any project can be completed using a 4-H Record Book. Record books are judged at county, district, and state levels at the end of the project year.

As a 4-H member, you learn to share with others the information you gain through your project experience.

One day 4-H will occur on **October 9, 2021** in every county across Texas. Each 4-H member can recruit friends to help make their communities better through adopting a service project. These projects can be done as individuals or as an entire county 4-H Program.
